Dear Steve,

I wanted to thank you and the rest of your team for the service that Fresh Stance have provided to my business.

For a business owner the last 10 months have been very challenging and many businesses have had to adapt their processes and procedures with IT being at the heart of this change.

As a client of Fresh Stance, I have been very happy with the levels of service and response I have received. Despite these challenging times your company has been there when required to resolve whatever issue I have presented you with and always in a timely and painless manner.

During a time when many businesses have faced hardship you stepped up and showed what kind of business you run. A real champion in your field and a business I cannot recommend highly enough.

Thank you for the excellent service and support provided and long may it continue.

Yours sincerely,

Earl Franklin
